(VERSE I/Dr.Faustus)

Forced to conform to the will of the oppressors
This shiny gold you sought never really impressed us
We the savage defend against civilized aggressors
The children of the lesser
Broken spirits mend to oppose foreign transgressors
Native in loincloth baring gifts taken as obscene
gesture
Spanish conquest comes from emaciated pale skin
creeps

Shallow men void of love is the company sin keeps
Throughout the years we've come to overstand political
science
Sovereignty attained through Boriqua-Cuban alliance
Flags wave similar to remind us of defiance
Y'all never saw it comin', island nations becomin'
giants
Globalization, non-compliance
Genocide to indian tribes
Siboney, Taino, Hatuey, Mayans
Los tiraflecha got arrows flyin'
God you must hear my cries
This slain son of yours make 'em thirst for our heathen
demise
Convince them Shaman also wise
Even if we decide to hide our hides under animal hides
We are not savage, we verbalize
In a different language, our land's ravished
Us in poverty, them living lavish
Why does it continue? Indigenous people considered
below average

Chorus:

The dominance of a people powered by the sun
chased and hunted down 'til the land is overrun
action added to the adage, "We shall overcome"
Spear must pierce flesh quicker than soldier's gun
RELAX, RELATE, RELEASE, SCREAM
Attack! debase the beast's dream

His nightmare filled with guerrilla rebels
death is a blessing given to these devils

(VERSE 2/Seth P. Brundel)

Llena de sangre
Una espada clavada en el alma de la tierra
con huella EspaÃ±ola
Ellas no llegaron solas
Con las de corporaciones
Naciones fascistas
Materialista
Violando la isla que grita con cÃ¡ncer en los riÃ±ones
Sus habitantes asmÃ¡ticos pescando peces que no
hacen
burbujas por meses
Quitense los lentes y enfoquen
Fuck it
Vamos hacer ejercicios militares con quÃ¡micos
tÃ³xicos
que matan al instante
en el patio de la Casa Blanca
la casa del narcotrÃ¡fico
que trÃ¡igico Lola
el mundo se ha vuelto Calle Luna Calle Sol
Agarra tu pistola
Ve con Juanito AlimaÃ±a no vayas sola
Dile que el dÃ¡a de la suerte viene ante la muerte y roba
Documentos clasificados de la Agencia Central de
Inteligencia y explota
Transmite vÃ¡a radio rebelde la gente que se vende por
un dÃ³lar le cortamos la lengua y el bimbo Entiende
Quieren que nos quedemos ignorantes y sin
educaciÃ³n
Recuerden el masacre de PanamÃ¡ las miles de
personas
que mataron afusilaron y no enseÃ±aron por
televisiÃ³n
El Grupo 8 estÃ¡ involucrado
En asuntos mÃ¡is profundos que un toto sin fondo
QuÃ© somos?
Busquen los Macheteros locos por darle
un machetazo al brazo de la justicia
La injusticia
Si Latino AmÃ©rica se unen rÃ¡pidamente como una brisa
Mejoramos nuestro estado
El golpe avisa!!!!
