I pick you up (pick you up)
On a Saturday night
Looking forward
To see your face again
Never thought
This could happen to me
My dreams are coming true

Let's take our time
The past we're leaving behind
Can't believe you're
Here with me again
Take my hand
This is how it should be

'Cause I knew right from the start
We could never be apart
You were always on my mind
This time I can't believe it's right
'Cause I knew right from the start
We could never be apart
Let's take this chance together

You shake me up (shake me up)
So I'm holding on tight
Break my heart
I'll come running back again
Times have changed
But our love will survive
I know we'll make it through

So out of breath
Now you're back in my bed
Tonight we've reached the stars again
Hold me tight
This is how it should be

'Cause I knew right from the start
We could never be apart
You were always on my mind
This time I can't believe it's right

'Cause I knew right from the start
We could never be apart
Let's take this chance together

I have never felt like this before
And I know where I'll be

'Cause I knew right from the start
We could never be apart
You were always on my mind
This time I can't believe it's right
'Cause I knew right from the start
We could never be apart
Let's take this chance together
