Racing through city lights
Little time left behind
Come on, come on, take me away
You keep hanging on
Playing this scene too long
But this lie is just too strong

I miss you
I want to give you all my love again

So we're taking just a little time
Yeah, we're taking just a little time
For the things we've always left behind
Just for you, just for you
So tomorrow is another day
Yeah, tomorrow is another day
For the things we always gave away
Just for you, just for you

Reach out and take my hand
I'll make you understand
Come on, come on, I will show you the way
Come run away with me
Open your eyes and see
This love was meant to be
Give me all your love again

So were taking just a little time
Yeah, we're taking just a little time
For the things we've always left behind
Just for you, just for you
So tomorrow is another day
Yeah, tomorrow is another day
For the things we always gave away
Just for you, just for you, just for you

[solo]

So we're taking just a little time
Yeah, we're taking just a little time
For the things we've always left behind

Just for you, just for you
So tomorrow is another day
Yeah, tomorrow is another day
For the things we always gave away
Just for you, just for you

Take a little, take take a little time
Take a little, take take a little time
Take a little, take take a little time
Take a little, take take a little time
Take a little, take take a little time
Take a little, take take a little time
Take a little, take take a little time
