I'm all out of it now
I'm all messed up and dressed down
I don't know anyone around
Because I'm out of it

For weeks and years and months it seems
I'm out of everything I need
No, don't ask for anything, I'm out of it

It must be a cool thing
It must be a cool place
It must be a cool state of mind
'Cause it's always behind me, where I can't find it?

I'm all out of it now
And I just gotta have it loud
And I could never turn it down
Because I'm out of it

For weeks and years and months it seems
I play my fingers till they bleed
The price of fame is what I need, I'm out of it

It must be a cool thing
It must be a cool place
It must be a cool state of mind
'Cause it's always behind me, where I can't find it?

It must be a cool thing
It must be a cool place
It must be a cool thing
It must be a cool place
It must be a cool state of mind
'Cause it's always behind me
