I'm down to no more patience
Lack of sentiment liferaft
Sit down, the large heart slave will see you now
Don't try to play it all down around me
You know I see right through enough
not to take it all the time
All said, I really don't care
All said, I really don't see at all
How that's the way I feel about you, too

I'll stand down again
And maybe if I see it fall
I'll find I really don't care at all
I see the more I save the less you wanna pay
Offered on a silver plate what I gave
It doesn't matter - I'm sick of seein' it through
Don't even know how much I paid to forget your face
