Invisible sound - that's the color of our younger years  
We're comin' to town - tell me are ya nervous?  
You won't see us  
Familiar sight - she's drunk and drivin' round in circles  
Held up to the light while we were out there  
Out in the Nowhere  
You won't see us  
The color of our younger years -  
invisible suits us fine  
You won't see us

The color of those seventeen years,  
leavin' gave me quite a smile  
There' nothin' to do - 'cept stay out late  
and cause some trouble  
Might've seen a movie, but they were always PG, or PG-  
13  
Beware the invisible ones  
You sweep them into your own backyards  
Beware - we're invisible - in our town
