Oh yeah, na na na na, oh

Oh gimme the feelings, gimme the vibes that can make things right

You know that little bit of love and understanding, you've got inside

Oh gimme the feelings, gimme the vibes that can make things right

You know that little bit of love and understanding, we've got inside

'Cause love can make you feel happy, love can make you feel blue

Someone now said it's alright, our love is here to push us through

Hold on, hold on, hold on strong, now

Hold on, hold on, hold on and it's so:

If you're feeling all wrapped up in the toils of life

Nuh bother worry yourself or hurry yourself, that can't make things right

Rome was never built in one day

Patience is a virtue, they say

That little bit of love and understanding might make it right

Oh gimme the feeling, gimme the vibe that can make it right

You know that little bit of love and understanding, you've got inside

Oh gimme the feelings, gimme the vibes that can make it right

You know that little bit of love and understanding, we've got inside

A brethren make his passage yesterday

He's all run up, he's gone now on his way

While since you've got no place of our own to stay

I guess it's just another problem of the day,

So you've got to give a little love and understanding,

oh
Just give a little love, be less demanding, oh
Just give a little love and understanding, oh
Just give a little love, be less demanding, oh

Oh gimme the feelings, gimme the vibes that can make
things right
You know that little bit of love and understanding,
you've got inside
Oh gimme the feelings, gimme the vibes that can make
things right
You know that little bit of love and understanding,
we've got inside
Inside

So many brothers who have tried to pave the better
ways
They work so hard, they work it harder ev'ry day
With this world wide frustration,
Babylon system on ev'ry nation
World wide frustration, woe

Oh gimme the feeling, gimme the vibe, gimme the
feeling
Oh gimme the feeling, gimme the vibes, gimme the
feeling
Oh gimme the feeling, gimme the vibe, gimme the
feeling
Of that little bit of love and understanding, we've got
inside
Inside, oh, got inside, oh , Jah liveth inside, there's love
inide
