Where does love go

When you're not in love

How does it feel

When nobody wants it

Tell me does it float around

Like a little lost cloud

When a heart is not it's home

What does love do

When it's not being used

It's feeling like it just don't belong

Tell me is it laying awake

In the middle of the night

Just thinking 'bout what went wrong

'Cause when I look in your eyes - it's just not there

When I hunger for affection - the cupboard is bare

I don't know why I keep hanging on

When love's got the message and it's already gone

CHORUS

Why am I always the last to know

Tell me why is it always me alone

Still dancing when the party's over

Why am I always the last to see
Just a fool who believes you're still in love with me
Even love can see it's over
I'm always the last to know
What do I do
'Til I'm back on my feet
Do I hang around and try to pretend
That I'm really over you
And it won't take long
'Til love says it's my turn again
'Cause when I look in your eyes - it's just not there
When I hunger for affection - the cupboard is bare
I don't know why I keep hanging on
When love's got the message and it's already gone.

CHORUS

The next time I fall
I'll be taking my time
To find out if her love is mine

CHORUS
