Left a message on your page

A night without you is gonna be strange

Baby the time we spent together

Is gonna make me dream 'bout you forever

You rescued me and showed me the sun

My September love changed two into one

CHORUS

Now only the rain is gonna stop

Only the wind is gonna change

Seems only the shameless feelings guide my love
tonight

September sun - you made me see

September moon - make love to me

Dreams only give me strength to wait another night

My September Girl

Things remind me constantly

Of how you looked and kissed so sweet

You must be a fool to be my lover

but I ain't gonna treat you like no other

I'll cradle you 'cause you are the one

September love - my life's just begun

CHORUS

Can somebody help me to explain why I'm crying

Can somebody bring you to me now

Rescue Me

CHORUS
