i) Way To Go

Are you coming down to earth,

For the convention of the year?

Everybody is coming in the universe,

Everybody has to be here,

From the valleys, to the mountains,

To the air that we breathe,

From the cold to the fire in me,

There is nothing, nothing that I want for myself,

There is nothing, nothing for me,

We'll find a new land,

We'll be the new race,

I've got it all planned,

We'll live our life upon a happier place...

Chorus :-

And we're setting off on to the wide open road,

As to final destination, who am I to know,

You gotta pay due care and attention,

We're setting off to a new dimension,

It's the high and mighty way to go, way to go, way to go...

We've got leaders, believers fresh from afar,
Common are the things we're working on,
We're looking to fill the hole in our hearts,
It's something everyday you just don't see,
Young and old creatures, dying to breathe,
Stunned by land, bewildered by sea...

Repeat Chorus

You gotta pay due care and attention,
We're setting off to a new dimension,
It's the high and mighty way to go...
Come on, come on, let's go to see,
What lies beyond the mystery,
Let yourself go,
Set yourself free,
Let yourself go,
Set yourself free...
You gotta pay due care and attention,
We're setting off to a new dimension,
It's the high and mighty way to go, way to go, way to go...

You gotta pay due care and attention,
We're setting off to a new dimension,
It's the high and mighty way to go...

ii) No Place Like Home

Now we're sitting on a star,
Heaven knows just where we are,

It's all wonderful so far,
And everything good happens...
Now I'm sitting much too far,
To see how beautiful you are,
To touch your skin to fall in love,
With everything that happens...
And now I know there is just no, no, no, no, no,
Place like home,
Oh come on , come on now (yeah yeah yeah yeah),
Take me home (can you hear me?),
Beam me up and then put me back down,
Safe upon a planet that I know,
I want to hear the thunder crashing down,
To see the rain and to feel to breeze,
Planet earth, I am missing you,
Upon your land is where I wanna be,
It's everything that I have been looking for,
Perfection far beyond my dreams
Now it's here and will be forevermore,
I just need something to come and bother me
