Ultrabeat

"Escape"

everytime you hear my voice
il keep you wondering
what if i was the one
now its too late

getting over you
gona show you
getting over you
gona show you
getting over you
gona show you
getting over you
gona show you
getting over you

(repeat 3)

i dont wana hear you're sorry
for all the pain you put me through
you let me down yeah you made me worry
at a time when i needed you
(and its hard)
you taught me how to breath
you gave me all that i needed
(and its hard)
then u left i fell apart
and threw it all away

and its hard to let go
little by little im letting you know

now im speading my wings and im flying away
now im speading my wings and im flying away

now im speading my wings and im flying away
im gona show you
that im speading my wings and im flying away
getting over you
that im speading my wings and im flying away
im gona show you
that im speading my wings and im flying away

im getting over you

gona show you
getting over you
gona show you
getting over you
gona show you
getting over you
gona show you
getting over you
gona show you
getting over you

(repeat 3)

i thought that we would last forever
you said you'd always be mine
(and its hard)
the things we said we'd do together
well u were already lying
(and its hard)
yes its in you're face youre around
id dream of you everynight
i could take of you now but it cuts me like a knife

now im speading my wings and im flying away
now im speading my wings and im flying away

now im speading my wings and im flying away
im gona show you
that im speading my wings and im flying away
getting over you
that im speading my wings and im flying away
im gona show you
that im speading my wings and im flying away
im getting over you
