Take You Away

Verse 1:

Close your eyes

Free your mind

And let your imagination go

Hold tight

Trust me

All you gotta do is believe

Theres nothing stopping (You and Me)

A whole new world (Wait and See)

Nothing to lose

Aint gotta choose

So baby lets take off and go

Chorus:

So if the sky is the limit than Im shooting straight
for the stars (For the stars)

Just me and you

Where no body can find us baby

Near or far

Come on

I'll take you away (5x)

Verse 2:

Dont be afraid

Dont be scared (ooo)

When you fall

I'll be there

Just take my hand

Follow my lead

I got a plan

Theres nothing stopping (You and Me)

A whole new world (Wait and See)

Nothing to lose

Aint gotta choose
So baby lets take off and go

Chorus:

So if the sky is the limit than Im shooting straight
for the stars (For the stars)
Just me and you
Where no body can find us baby
Near or far
Come on
I'll take you away (5x)

Bridge:

Dont doubt it
You cant deny this
Feeling that Im giving you
You want this
I know it
So lets explore the night

Rap:

Franchise playa baby
No time for replacements
I take you away
So where far / Spaceships
Sight-see
Look at how my swag outshines them all
She can get the star role / no casting call
Her number one scorer / I dont pass the ball
Looking at how fast she crawls
I mean she walks / like she knows she that
Baby she knows shes bad
Lady Im fa real
Two R's / Two L's
Get it
Im gone

Chorus:

So if the sky is the limit than Im shooting straight
for the stars (For the stars)
Just me and you
Where no body can find us baby
Near or far
Come on
I'll take you away (5x)

Thanks to garbo
