Ultramagnetic MC's

I remember the first time I ever seen Ultramagnetic
At Latin Quarter

Yeah, it's time to come out and give the people
Somethin' they can understand
Somethin' not too complicated
(Cated)
You know what we gon' do?
We gon' bring it down to Earth
(Earth)

Bring it down to earth, I don't understand
Bring it down to earth, I don't understand
Bring it down to earth, I don't understand
Bring it down to earth, I don't understand

Mega bomb ignite, super reflection
Power ignites the Fourth Horseman, turbo
I kick styles like Data, computer reading
Miles away to beam Star Trek

Movin' my style up, Optimums level 4
I get it warp speed, yous on my space tour
Get with the elements, eloquent spacecraft
Change my gamma flow, one-three-eight-seven

Twenty-oh-nine-six, cereal silver seven
I got the skills to rap, so what you want Spock?
Style like Captain Kirk, gamma ray one block
Particle leading out, rock the way intercourse

Damaging animals, a lady with menopause
Rising at one speed, altitude X be
We need some gas or fuel, yo come in major
I'm just a level or pinch, I'm hittin' New York

Flyin' with Ced, I see the other world
I need some gas, yo Jim, I gotta come down
Perimeter's reading we might crash

Bring it down to earth, I don't understand

Bring it down to earth, I don't understand
Bring it down to earth, I don't understand
Bring it down to earth, I don't understand

I know you out there and y'all understand
But I'ma let Ced get on and tell y'all what it's really like
It's not so complicated
But connect with me and y'all follow me right on
through

Yo, Ultra power flowin', get ready for Centron
React with the digital, kicks like loose bombs
High tech C-spects, hit data brain checks
Soundin' like John? Time's up brain test

Info storm, locked like sentry
Buzz, buzz, buzz, it's annoying
So pick up kicks and, flex with the mega mega
Square roots on time, so check, check, check, check
And go as I ignite, the energy will unite

Fake attacks for me, hard as I get hype
T-Minus 7 counts, divided by kilograms
Input outputs, the figure is fluid
But some plug sensors, replace it with bass

It's kickin' up fiercely, boomin' with heat
While you sneakin' with energy, sound heat sneaks
The chamber the membrane, delirious insane
Now think about it, mm I know it's crazy

With moisture one, and texture seven
The panel's on fire, interference is higher
Delay is in, device is on
Spinnin' that plate, proceed this quick
Some bomb it and quit, then give up on life

They just can't handle, the rays of light
They tryin' to see, they move the barriers
They catch the enzymes, becomin' a carrier
They stop they breathin', they hold they breath
Pass out and soon, then they forget

Bring it down to earth, I don't understand
Bring it down to earth, I don't understand
Bring it down to earth, I don't understand
Bring it down to earth, I don't understand

Bring it down to earth, I don't understand
Bring it down to earth, I don't understand
Bring it down to earth, I don't understand

Bring it down to earth, I don't understand
