Check it; this Ced Geeeeee  
Bring in you the Ultramagnetic Basement Tapes,  
Volume 1  
Dis song right here is like the first joint  
Not the first joint we did together  
We did a couple in the stu-dee-oh  
But dis dah first joint we did in the crib  
Cause we want that real dirty sound, so check it  
"Make You Shake It"

[Intro]

LOVE!!

[Kool Keith]

Sure shot, live the place to be Yankee Stadium the  
Boogie Down Bronx  
Number one sure shot - comin at you live, wicked and  
wild  
Somethin funky fresh for the human beings  
Please adjust your safety hats, to go on the ride  
Sure shot...

Make-make-make-make-make-make-make-make-  
make-make-make-make-make-make-make-make-  
Make-you-make-make-you-shake-the-shake

In the place, Ced Gee, Ultramagnetic MC's  
Kool Keith in the house, it goes like this  
Boogie Down Bronx, doin hip-hop

[Verse One: Kool Keith]

Every half of a tick, a pen, I'll choose the Bic  
Yes the prompt rolling writer, for the top reciter  
With the paper on the table I'm not your average biter  
Incredible to see, for you to judge agree  
Now I'm older with finesse, my style relate the best  
But we done the super facts, superb I'm not whack  
As I cruise upon the hill, the Bronx I'm out the 'Ville  
While the indy look and stand, the bold shake my hand  
Yes it's time to get heated, park a blue Sedan

Now it's all about her, her friend I would prefer  
Do the kid much respect, because they call me sir  
You're the famous rhyme teller, mine the drill dweller  
Proficient you are; indeed, a fortune teller  
Palm reader and defeater, frankly through your  
tweeter  
My perpetual game to make you feel shame  
Perhaps some brain competition, a higher paid  
admission  
Kool Keith's on a journey, students please listen

Make you shake! Make-make-make-make-make-make  
you shake  
Make-make-make-make you shake (Boogie Down)

[Verse Two: Ced Gee]

The tempo of this party, will always affect  
My phrases and style, will always connect  
The beat to the rhythm, and make you crash your  
hands  
As regardless to the thought there is no garbage cans  
Make you shake! Boogie Down

[Kool Keith]

Make-make-make-make-make-make-make-make-  
make-make-make-make make you shake

[Ced Gee]

Cutmaster! Devestator!  
I'll make you shake

[Kool Keith]

Make make you shake

[Verse Three: Kool Keith]

Stuck in a move, the feet's, got the groove  
Now you stimulated ready the beats gyratin steady  
At a megawatt level, bold to kill the devil  
With exam-ious reading against myself competing  
It's the wizard of the world, rough and stampeding  
Every fighting ear temper, half a slighting rapper  
Would evacuate the town, descend and drop down  
Whereas Hurricane Keith would blow and come around  
Like a vandalizing tutor, a programmed computer  
When I'm drilling in your brain, my job at Roto Rooter  
Is forming incision, slicing in division  
And commoding every nerve, with language to serve  
As the basic fundamental, smooth and ex-stential  
Dictate it digit-ly, and also exclusively  
Created by the best, I'm here to express  
Cause I'm not one to know what Double K express

Make you shake!

Make-make-make-make-make-make-make-make you  
shake

Make you shake (Boogie Down)

[Verse Four: Ced Gee]

Now the steady beat controlling, your ears now going  
With the flow of the voice you thought this style was  
lost

But it's back to inflict, affects with steady kicks  
In-ful-gating frustrating, and administrating  
Who stands in rap, Ced Gee is demo-strating  
Impotent to yo' brain, discrete and not the same  
Methods and skill I display, upon bass  
Explosive, I'm loaded, my style is so devoted  
To slaying other rappers, the ones the skill lackers  
Extremely gifted, I'm makes a pro a living  
That my syllables are chosen, made to cause erosion  
Damage all cells in minds, I cause explosion  
Ex-spellish, the crowd, me and my pal  
Kool Keith, Ced Gee  
I'll make you shake

[Kool Keith]

Make you shake... make you shake

[Ced Gee]

Cutmaster! Devestator!  
I'll make you shake

[Kool Keith - "make you shake" repeated ad lib to end]
