[c.gee]yo keith that trip was kinda long  
[keith]word up ced  
Excuse me, aren't you guys ultramagnetic?  
[c.gee]word, whassup money?  
Yo i just saw that spaceship over there  
[c.gee]hahahahaha  
Let me ask you somethin  
[c.gee] yeah  
How much money did you make this year?  
[c.gee] yo that's kinda personal money

[kool keith]  
You wanna know my business? i got things to do  
People to meet, people to see  
Very important - matters to turn to  
A waste of time for me to try to burn you  
And talk a minute, you're not worth a conversation  
I speak intelligently, with information  
Goin and flowin and showin, you're still growin  
Adolescent -- with a childish mind  
Your brain is small, plus it's hard to find  
I need a microscope, to see a two-cent brain  
That don't think, when they rob and steal  
And rape and kill -- and murder their loved ones  
Now put your brain in the guillotine  
Slice up the cold cuts, you're goin nuts in a three-inch  
cell  
You wanna low rate me?  
You're better off in hell, feel the flame  
Fire burn roast and toast  
Let me heat up your skull, while i brag and boast  
I keep your brain on stand-by  
Cause this message, comin from the source!

Source.. source.. source.. source..  
Source.. source.. source.. source..

[ced gee]  
Your attention please, come on and let me try this  
This beat is funky -- so i just  
Made up some rhymes that are hyper than hyperspace  
Ced gee will kick bass face and eliminate

Rappers who think quick slick with a few tricks  
Can't be quick fixed if they try this  
Man, and, aiyyo, i have the right to be  
On any stage and mic someone can pass to me  
Cause, i'm in there, and i swear  
I'm like vladimir, no one best to  
Step to me, get to me, or pes-ter me  
Confess to me, be guessin me  
Adressin me, be less than me, or testin me  
Because, it only brings out the best in me  
So, yo, here's what we really need to do  
Instead of battlin we need to really improve  
Our race, and every other race  
Bring em together -- and let's face  
The problems, that we need to be solvin  
People are dyin, starvin, robbin  
Bein discriminated from different jobs  
And things like that so think about that  
We have a tool to use that they call rap  
So, yo, let's use it, and not abuse it  
And in the long run, we have improved this  
Situation and turned into a positive  
They doubted this, but we're proud of this  
Institution we invented of course  
And this message, is comin from the source!

Source.. source.. source.. source..  
Source.. source.. source..  
Source.. source.. source..

[kool keith]  
Once again, i hear your garbage on my radio  
Left to right, and comin through my stereo  
I turn it off, go off, bug out, show
