(Ced Gee)

I am dominating, biochemical sources  
To effect scientific, beats and attitudes  
Through my hemispheres, packs and galaxies  
Beyond and out of range, far is sent to me  
Cause to the left I am blinkin', mega and hype  
While absorbing predators, as a scientist  
Skilled with medical degrees I combinate  
Years on Ampex, experience Ced  
Indeed, bioforce parallel MPC  
Was in-gen-ularity and ability  
I'm the wizard Ced Gee, I'm a scientist!

(Scratching)

To DELIVER, such a powerful mic  
I'll excite, and I'll also ignite  
the crowd to respond to my total formulation  
Particular words, designated for a path  
That you can sell, a new format combined  
And I won't rhyme, but instead I'll refine  
The proper use of speech, as I teach  
Things physical, change must be rearranged  
Passing data of a mode, choosing a code  
Kick back the time, then I'll explode  
Into ATOMS, and the mixture I'll build  
Just hammering a mouse, a third would be evil  
to the science, formed expressed by Ced Gee  
I'm a scientist!

(Scratching)

NOW I'm pickin up speed at a maximum pace  
And all nucleus attached, must metriculate  
With me the scientist, the man to compel  
Against competitors, equal to excel  
To a nuclear wave, events and above  
all meters, contain precise, the same extended  
Opposite to illusion is BASS  
There be no confusion  
To set my megameters, laboratory stories

I'm gain more glories in all, sorts of categories  
To be raised up, a bit  
Ced Gee, as an Ultramagnetic, SCIENTIST!

(Scratching)  
"Keyboardist Money Mike"
