Yo! That just about wraps up  
what I believe is some unique careers  
But how else to bring this... decade  
and, different y'know that new innovative rap  
to an end, but with a song that best describes it  
It's called "Smoking Dust," it's 1993, check it

"Today's top story - President Fairlane spent the  
morning  
in conference with the nation's top scientists. He  
discussed  
the massive {?} problem no other man had ever had to  
bear;  
the face, of evil."

[Kool Keith]

From the Boogie Down Bronx, Voltech City  
We are here to teach the imbeciles  
The ignorant, the most stupid biological means of  
course  
How can you be so dumb, Now you with that smoking  
dust  
Flying particles, embalming fluid (AIGHT!)

Powerful, igniting my mass appeal with steel  
The legislator, funky phantom masturbator  
Galactic arraignment, I step to you gay men  
For organism, my imprinted mechanism  
Solo flex, my flowers grow like the embryo  
Doctor Ock, and mega {?} come in video  
Alpha control, Spock to Scotty beam in sick bay  
Relay the ADAT, my new computer chip  
Watch the dim{?}, the mack {?} computer flip  
Never wastin time, I cruise warp speeds  
Atom speed, I blast rocket the blind speed  
7-X-oh, who coming light speed  
I got the fly the bucket seat spaceship

Missile control, Spectrum City sees the fold  
I'm in the atmosphere, word to planet Earth  
My intro verse can funk so impeccable  
Styring. styring. styring  
I'm a zeek smoking dust

[Chorus: Ultramagnetic]

Not drug dust, the dust of fools (hit it!)  
Smoking dust.. we're smoking dust  
Smoking dust.. we're smoking dust  
Smoking dust.. we're smoking dust

[Ced Gee]

Come see the psycho, kick another caper  
I'm only here to strafe ya, set the record straight  
Let my mental powers break ya, elevate, correlate  
Fate just scraped ya - come one come all  
My sight is on the justice  
I know what you've been told, but you really have to  
trust this  
Rippin alleys up, my aim's to ride  
I know it's ass-backwards, instead it should be I  
The alien, citizen, straight from the bottom  
{?} cycled up, part the dust, yeah I got 'em  
Through heaven and hell, it's all in the mind  
Cause when you're gone you're buried, 'til the end of  
time  
The biblical master, arrangin the trip  
Some humans wanna doubt me, they catch me on my  
ship  
To me it's no problem, that's far beyond my way  
I leave 'em like a puzzle, each play is mine to sway  
Debate, is open, today  
So pick up pick up, the blast from my brain  
{?} Ced Gee, the infinite, infinite  
Like Churchill was elected, yeah I have a special gift  
To lecture, shift ya, switch ya, move ya  
Get you out your seat, totally improve your  
search, state, learn, find  
WHAT SEEMS TO BE THE PROBLEM, WHAT'S WRONG  
WITH MY MIND?  
I'M SORRY, SORRY, SORRY, SORRY, SORRY, SORRY...  
I'm smoking dust!

[Kool Keith]

Smoking dust.. we're smoking dust  
Smoking dust.. we're smoking dust  
Smoking dust.. we're smoking dust  
We're smoking dust

We are the immortals

Take us to your leader as we exhibit the Earth through  
different forecasts  
What is right for one, which can understand, limits

[Verse Three]

I'm comin hyperatomic, connectin rays to power  
To blow up brains and steal the real skill, the shit is ill  
Then I conduct and switch to mega  
And I can choose to include the views, to set my move  
And like the beat will never cease  
Inhabitants disappear through my brain vision  
A Babylon, skatting, in search of human, {?} }  
The main decision, of mind control  
See what I mean is, energy  
The master of the guardians of the universe  
And you will search for, my armageddeon {?} }

[Kool Keith]

Smoking dust.. smoking dust  
Smoking dust.. we're smoking dust  
We're smoking dust.. smoking dust  
We're smoking dust.. we're smoking dust  
Smoking dust.. we're smoking dust  
We're smoking dust.. we are the immortals
