[Ced Gee]

Yo! Later on we made a joint called "Make You Shake"  
But you know, that's what we was tryin to do  
We ain't gon' even talk 'bout the, the other one  
But check dis, this the first joint we ever did together  
Dis like 19.. eighty..... five, check it

[Intro]

Space - the final frontier  
These are the voyages, of the Ultramagnetic MC's  
To boldly go, where no other rapper has gone before  
To examine the universe, reconstruct the styles  
of today's, hip-hop, culture

[group]

The groove to emphasize, the beat to utilize  
Together we combine the thoughts to energize  
To go with the flow and zap, every show - indeed!

[voice]

Proceed to explain the sound of music  
When it{?} zaps from space

[Kool Keith]

The pitch is controlled, distortion is corrected  
All tweeters are jumpin, the bass is injected  
Equal meters are movin, the beat just groovin  
The tune is amplified, music breakin the vibe  
As I talk, amazing soul, come out your stereo  
In a three-dimension swirl, this groove'll twirl  
Circulating through your ear, sort apart you hear  
Likewise to surprise, or even otherwise  
To boom your system loud, and boldly equalize  
With monitors reading, the power you're receiving  
Your output's kickin while time is just tickin  
At a maximum pace with class and taste  
All elements converge, to roughly emerge  
As a soul mechanism, tough expressionism  
To prove a man's mind, there's knowledge then  
wisdom  
Kool Keith I stand, here to rule and command!

[voice]

Yes I see, but can you further enhance  
my understanding of that last question

[Ced Gee]

The mix real cold, the rhymes are complacent  
When the atmosphere is dense, the sounds are  
compression  
All the levels are movin, with us just zoomin  
The mix is Gemini, soundtrack make you realize  
That as I speak must be deep my force is at it's peak  
Ten thrills per second, this formula's injectin  
Vibrating through your brain, sorta strange deranged  
Likewise to arrive and be, immortalized  
To choose your designation and boldly energize  
With sensor readings, the message you're receiving  
Your accents kickin while your bass keeps hitting  
At a minimum rage with an order restrained  
All power circuits surge, then roughly diverge  
Choose brain functionisms, work with mechanisms  
To simplify all science, rules with definitions  
Ced Gee at his peak, information never weak!

[voice]

Hmm, so then let this track be called  
HA HA HA HA HA HA HA...

(Space Space Space Space Space Groove)  
(Space Space Space Space Space Groove)

[voice]

As a space MC  
What kind of powers do you possess?

[Kool Keith]

Well they call me Kool Keith, the lady's relief  
No alias rapper, or Vulcan chief  
Now hocus, pocus, bring your mind in further  
Cause I'm a wizard to abolish, disappear astonish  
As I move beyond space, the clocks hear the bass  
While the Earth motivates, spins and rotates  
My mind innovates, absorbs and dominates  
Every typical brain, drained with no complain  
At a radius measure extemporize pleasure  
To phase interchange, evidently strange  
Transmit it to a form, some heat to make it warm  
Throw vapor in the air, produce a thunderstorm  
With effective material, beamin through your stereo  
At orbital speeds information to feed  
Seven words per second, the mega force is wreckin

On a voyage to discover and wipe out any other!

[voice]

Yes - but how does HE use his powers?

[Ced Gee]

As I orbit through space, my rhymes set the pace  
My mind concentrates, consumes then innovates  
Multi-celled membranes, trained to be insane  
Make symbolically fresh, yes to impress  
Expand at range, more and never less  
So rapid with thrust, I'm here to brain crush  
All toy perpetrators, social mind invaders  
Reduced to nothin, because they just bluffin  
In a sense, to convince, I'm here, in great suspense  
At a warp factor seven, returning you TO HEAVEN

[voice]

So I see, so I see

AH HA HA HA HA HA HA HA!
