[Kool Keith]

Yeah! Yeahhhahhhh

Yeah.. yeah.. YEAH.. YEAH..

YEAH.. YEAH~!

I'm on vacation right now, but this I got right here
is called anti-theft guardin megabyte
My showmanship and work choice, is over light
I fuck wit'cha {?} right, they starrin up right now
I'm takin position to shit on your spot on sight
Direct foes toward the endin of they career
You bastards make a right, cause the road you about to
take
We've seen The Wizard, it's fake
Your bowels move scared like you had a milkshake
I like the way you sit up choppin words down against
me
You sip with a candle and a milk crate
Like chocolate candy you will break
Running back, Detroit Lions, with an ill fake
Trackin technique is complex meat (YEAHHH!)

[Chorus: repeat 2X]

If you ready move your headshot, get ready this
Ultramagnetic
Another beatdown, yes I said it
Super spellbound, extra bad, don't work it see
Super spellbound - rush the streets

[Ced Gee]

I'm the most incredible cat you ever heard
Cats feed off me, dawg they bite my words
Y'all niggaz is phony, you cats is birds
Call my chickens dimepieces, they all got curves
My rap flow's sweet, son your flow's absurd
I'm a legend at this rap shit, dog spread the word
Nah I'm not just ramblin
Son you can go back and check my stats
From "MC Ultra" to "The Bridge is Over"
I helped put this rap shit on the map
And yes I got guns, and guerillas who all got my back

I'm a fat shit nigga for life, and I'ma leave it at that
Now you think this is a game? Well the last cat who did
that
They found his ass laid out on his back
He got caught by the gat, brrrat-da-dat, brrrat-da-dat
Now we can do it like that, or you can catch these 16
bars
And just take your L like that

[Chorus]

[Kool Keith]

To rap with me it don't mean you gain fame
The Triton is out of order, the MP button don't work
Now it's a struggle, against the policy
Overnight temporary stars they knew it was complex
I'll spraypaint your hall more, just to cover your name
To get up to my mic level first you gotta go
I'll put you to shame, through legendary obstacles
Shit I guarantee with a bag full of envelopes

[Chorus]
