Watch me now  
Watch me  
Watch me now  
Yo Kool Keith, why everybody gotta watch you?

Well I'm the ultimate, the rhyme imperial  
I'm better, but some don't believe me though  
But I'm a pro in hot material  
On your Walkman, box or any stereo

Uno, dos not quarto  
Spanish girls, they like to call me Pancho  
On the mic, innovating this pat-ter-en  
You fell off, your brain is on Sa-tur-en

Take steps, and climb my ladder  
And climb, climb, climb  
Pace the rhythm, and clock the time  
That I leave, come back on beat

Different, telling and selling  
Like a Skyjet, plane propelling  
But dwelling, deep in your skull  
My rhyme shines, and yours is dull

Like dirt, it hurt to be whacker  
But instead, I'll grab a big stack of whack  
MC's, lay em down like tile  
Scrap and garbage, germs I'll pile to keep clean

I'm a movie scene  
Ears turn, and needles lean  
To cut scratches, in a part that matches  
I'm leavin' eyes, and brains with patches

Stuck, so push my luck  
For any roach, or MC duck  
Just watch me

Watch me now  
Word up, watch me now, suckers!  
Watch me now

Yo Ced Gee, why everybody gotta watch you?

I'm livin' large, my record's on the radio  
Everyday, you hear me, your stereo  
Rappin' hard, with lots of volume  
You hear static, well use your fine tune

Knob, to tune me in better  
'Cause I'm Ced Gee, and I would never  
Let a whack MC G off with style  
Touch my mic, rip and smile

Like a duck, you know you are a soft punk  
Livin' pink, your material sucks  
Liver and worse than you can imagine  
You best run, 'cause I'ma put a badge in your brain

So you can see the real time  
Grab a pen, and write down my rhyme  
And learn it and learn it and learn it, until it sinks  
Inside your skull and you're no longer pink but red

'Cause now you are a biter  
Learnin' from me, so I guess that is Oreida  
Except if you try to be the original  
Rhyme imperial, the exceptional Gee

Sometimes I rhyme offbeat, awkward  
But different with the rhythm  
Back and forth one two and then I give 'em  
A chance to see the world's greatest MC just watch me

Watch me now  
Word up, you gotta watch me now  
Watch me now  
Moe Love, you needs to groove

I'm continuing! Back and forth your brain spins  
Facing North and south and West, not East at a angle  
But mines dangle, where's your Kangol?  
It seems weird, your head is triangle

Like a mango, somethin' I snack on  
A soft duck, somethin' I smack on  
Everyday, when I come outside  
You step back, stay inside your house

While you look out your window  
Your girl screams, "Where Kool Keith go?"  
Walkin', while punks keep talkin'  
Annoyin' me, MC's hawkin'

On the stage, any time  
I'm cold chillin', I'm wearin' the rhymes  
To keep warm, with the beat that's playin'  
You hear me now, you know what I'm sayin'

To you, you and you  
Your whole organization and crew  
Just watch, as I enter your mind  
Decorate, and paint my sign

I'm hazardous, so scatter this around  
I'm Kool Keith, knockin' MC's down  
Just watch me, and him

Rhythm with madness, I had to have this chance  
To rock again so you can hear this  
Over and over and over, until I'm finished  
Hey but I'm not, so here's the rhythm

A rap beat, step beat keep feet happy  
As we gradually slowly we'll teach all how to rap  
I will attract all the def girls  
Smack the ugly ones back

And sit, as I chill, I'm drinkin' Moet  
Expensive champagne cause Ced Gee is a poet  
Rappin' and teachin', reachin' levels higher  
Don't wanna be king, so don't call me sire

But instead, a scientist, with the breakthrough  
My rap is funky, it can relate to you  
Him, her, your little brother  
His older sister, your baby's mother

Cousins, aunts, your whole family  
In other words, Ced Gee, I'm absolutely  
The best producer, at makin' rap music  
I know how to use it, so just watch me

Watch me now  
Yo, this is TR Love, tellin' y'all to watch this  
Watch me now  
Germs! And we out
