As we search for black people and white people  
Seeking the world of the four horsemen facing  
John, Henry, the robot, Dr. Smith, and Will Robinson  
Come in please on track for the remix

Adjusting our systems, the horsemen are ready to go  
Our jets, should be ready for take off, any second

I probe for evidence, movin' positive beams  
Incite the first gadget, my atom explodes  
Just hit the fifth planet, the X reload  
Take a brother on a flight for the Alpha, Omega

I kick lyrics on Earth, you think I'm cosmic  
A space walker dippin' in my spacecraft  
Through molecules, a steel wall inter phase  
The fourth horseman, legendary universe

Dark shadow human rhymin' on a funky verse  
I'm level 7, Optimus pull back  
Feeding the world of gamma data to locate  
You interlock, power 7 warp speed

Negative charge, biochemically crush  
My own nucleus bomb, the great Menudo  
Yo Wolverine, I'm down, Cyclops, Rhythm X  
X we can back up the four horsemen

Toronto Blue Jays, field, just like Dave Winfield  
Pick up your bat and go to third  
I see that man at the plate, he's waitin' home

We are the horsemen, enter your spaceship  
We are the horsemen, enter your spaceship  
We are the horsemen, enter your spaceship  
We are the horsemen, enter

While, returning back to my spaceship  
On my galactic horse, this is what happened

I get super bionic  
No, my name's not Mantronix, but I'm 4-H-M

Kickin' flavor so steadily, so wickedly wicked  
Can I switchedly switch it, I saw my troops last night

They said, "Ced, could you kick it?"  
I got mega in concert  
Then I wrote a deposit, I hit my mega-mini  
Zoom back to outer space, ten, nine, eight, seven, six  
Five, four, three, the chain reaction

Triggered the mad flows, then the rhymin' got hyper  
Plus I knew what they like-a, so I ripped it and rock it  
Frequencies in the pocket, one blast two blast  
Yes, approximate, green in the chambers

The lights came on, infrared and exciting  
Most don't know what I'm saying, galactic come beams  
Beams, beams, beams, beams, beams, beams  
Beams, beams, beams

Now it's classic the atom, no, I don't mean The  
Phantom  
Molecules in the mix, with lots of protons to hand them  
Plus I'm billin' the workers, secret charts led to Persia  
When they're reachin' their pick-up, I'ma crossover  
bezerker

We turn to the galaxy, the universe bothers me  
From the, 'Wild Wild West', I have a spaceship  
mentality  
When I chill at the planet, magnesium flip  
So I shake up the myolex, so what's left?

We are the horsemen, enter your spaceship  
We are the horsemen, enter your spaceship  
We are the horsemen, enter your spaceship  
We are the horsemen, enter your spaceship  
We are the horsemen, enter your spaceship  
Yee-hah, ride 'em Silver, we out

Yeah, yeah, yeah, yeah, check it out, yeah  
Jimmy Cliff down with the horsemen  
Ron Bordett down with the horsemen  
Doc Doc down with the horsemen

Kevvy Kev down with the horsemen  
Kleptor down with the horsemen  
Drew love down with the horsemen  
Old Maid down with the horsemen

Chuck beats down with the horsemen  
Jazz down with the horsemen

Kevvy Kev down with the horsemen  
Cut Cut down with the horsemen

The whole world down with the horsemen  
All the honies down with the horsemen  
And we're out, check it out  
(Yeah)

We are the horsemen, enter your spaceship  
We are the horsemen, enter your spaceship  
We are the horsemen, enter your spaceship

We are the horsemen, enter your spaceship  
We are the horsemen, enter your spaceship  
We are the horsemen, enter your spaceship  
We are the horsemen, enter your spaceship
