[Ced Gee]

Aiyyo Keith, you know what I was thinkin about?  
You know how we go to those parties, and the whack  
rappers  
who got a lil' hot record tryin to act like they don't know  
us  
Ya, y'know the, the fake ones, who try to  
They imitatin LL Cool J one month, then this month they  
Africans  
Or they wear a lot of polka dots cause they think it's  
commercial  
Or they sing a lot in their records - what'chu think about  
that?

[Kool Keith]

A lot of rappers can't talk - they're quite stupid  
They rhyme and they stutter - they're quite Cupid  
But I know the deal, they only rhyme on a slow beat  
Some lookin for slack and bustin rhymes with no heat  
Soft as Cottonelle and rolls of Scott tissue  
They wanna be down, it's time to bust the issue  
Now you think you're hard, with 57 bodyguards  
Runnin around, lookin bummy and extra  
Cause you think the people, wanna move and get next  
ta  
You're paranoid, about your gangster fantasy  
Now look at the swift pro and face reality  
So watch your back end, you slip and you're slackin  
See I don't talk to the weak and the whack and  
MC's step back and, I damage they industry  
Then play like a fool, like you never did notice me  
Now hop on the jock and, now see who's rockin  
Don't give me no pound, cause you ain't down  
Clown... you're nobody, tryin to act like you're large

[Ced Gee]

You're nobody, nobody, you're nobody, nobody  
You're nobody, nobody, you're nobody, nobody  
Nobody, nobody, nobody, nobody  
Just nothing, you're a piece of shit... you're nobody

My record is fly, your record's a big flop  
Now in this new year, it's time for a real drop  
As I take a picture, great pose and black beat  
With Keith in the limo, countin cash in the back seat  
You did a cheap show, no cash in Birmingham  
And while you was gone, we signed a new deal with  
Polygram  
But you don't think so, you're probably jealous man  
You know that we're dope, but you're scared to just tell  
us man  
Cause you like that happy stuff, the two-faced DJ  
You'll soon lose your job, with the records that you play  
Got a little juice at a New York station  
So what you don't play me? I'm on heavy rotation  
Across America, in funk formation  
Around the world and, with heavy persuasion  
The man at hand to grand the stand in total command  
- and plus I must say damn  
Well some of you groups play, like you're with the  
people  
Like we're united, we're all equal  
But when people see, you try to act like DeBarge  
But you're nobody, tryin to act like you're large

Yeahhh, you're nobody, nobody  
You're nobody, nobody, you're nobody, nobody  
You're nobody, nobody, you're nobody, nothing  
You're nobody, nobody, you're nothing, diarrhea

[Kool Keith]

You got these African rappers who try to act like they  
African  
They're playin themselves and dressin up like they  
African  
But I'm in New York, chillin hard on the city street  
Where crime and drug wars, my bouts in city be  
While you be a fool, you think it's worse than Africa?  
Like Ice Cube said, I gotta giggle and laugh at ya  
So what are you doin, so what are you sayin?  
So what are you gettin it, so why are you playin?  
Cause you just a phony plus, the Queen don't impress  
me  
Preachers and teachers, rebel ones come test me  
While you catch amnesia, and go into seizure  
I treat you like pinball, and show you I played ya  
Out of the box like a old pair of socks and  
Choose to go when, now see who's flowin  
Keepin in step the rep the pep for those who slept  
Yep, I'm not a new jack swing man  
So groups that perpetrate, they can't even sing man  
Drivin around, owin cash on a Benzo

Your payments are due, your car is not even paid for  
... you're nobody, tryin to act like you're large

[Ced Gee]

Yo yeah that 'bout some that up Keith man  
Just just y'know what we gon' do we gon' keep on  
schoolin  
these fake rappers, try to make these brothers real  
y'knahtsayin?
