[Ced Gee]

Yo, it's time to reach and seek and speak to each  
about the beast, that needs to be teach  
Cause in this world today we have problems  
We must work hard, together to solve them  
Word up, that's on the real tip  
And this is real shit, so don't forget this  
When you find the type of time to sit and chill  
and listen, to a record like mines  
Which is equal, to the reality  
It touches topic, like solvin poverty  
Racial difference and a host of many others  
But here's my real point, we're all brothers  
and sisters, so get the, point I insist-a  
Have a dream, feelin the wish the  
world would follow  
It's time to shape up, for tomorrow  
So swallow, these words that I am statin  
We need to stop drugs, keep educating  
Our youngs ones, our gifted, our loved ones  
How to up-build, become one  
race who must erase, eliminate  
The problems that we face to set them straight  
Set things straight so that we can advance  
Yeah... cause you're sleepin

"I caught you sleepin" [x4]

Some say keep it simple, but I say that's not right for  
me  
I think I'm deeper, I have my own philosophy  
About rappin, the way I feel it should be done  
It should be clever, competitive but also fun  
And educational, teachin all our younger people  
That no one's better, that everyone's created equal  
Now here's a rhyme to make you blink and wink  
and think about the problems we have linked  
to a brother man, and me then the other man  
Must take time, and understand  
That when you get yours, I must get mines

Or at least have the equal chance to find  
a job, in the executive class  
It sounds simple, but it's a difficult task  
for them, the rich and the greedy  
To give up some to the poor and the needy  
Cause they controlled it, for years and centuries  
It's not hard to see, why you must share with me  
Money, then we can all live as one  
Stop the prejudice, for everyone  
This might sound farfetched, but I will bet  
you give up some cash, and problems will jet  
You're sleepin

Now, people and comrades, it's time to listen to  
Ced Gee from Ultra, I'm willing to give to you  
The type of knowledge, to make you think quick  
Ced Gee can do this rap with much wit  
Helpin my people see, the power of unity  
So get the message, then teach dignity  
To all of my young ones, becomin the strong ones  
They learn in the long run that they have to love one  
another, brother or sister  
Here's another point, cause you missed the  
whole idea when I ran down a funky rhyme  
So once again, as I get mines  
Reachin, teachin, speakin  
Seekin ... yo, cause you're sleepin

"I caught you sleepin" [x6]
