I remember the day we met
How could I forget that day my whole life changed.
We both look at our scars
we finally realized that love is really meant to be
No matter what size, Gender or age.
no no
It could be Distance or Colour
You love who they are.

And Yooooouu love who they are
Doesn't matter what they say.
Doesn't matter what they do.
But you are yourself and me and you together. Forever.
You just love who they are. xx

I bet you think I forget about the endless texts and
calls.
Me loving you, You loving me
Its our little secret but ya know I just want people to
move on cause we're in love!

And Yooooouu love who they are
Doesn't matter what they say.
Doesn't matter what they do.
But you are yourself and me and you together. Forever.
You just love who they are. xx

You taught me to be free
You taught me to be happy
You made my wrist clean oh yeahhhahh yeahh
