I remember when you filled my heart with joy
was I blind to the truth, just there to fill the space?
cause now, you have no interest in anything that I have
to say
and I've allowed you to make me feel
(I feel so dumb)
what kind of fool am I?
you so easily set me aside

CHORUS

you made a fool of me
tell me why
you say that you don't care, but
we made love, tell me why
you made a fool of me
you made a fool of me

I want to kiss you
does she want you with the pain that I do?
I can smell you in my dreams
and now that we're face to face, you won't look me in
the eye
no time, no friendship, no love
you say don't touch you
I can't touch you no more
can't touch you anymore, anymore

CHORUS

you made a fool of me
tell me why, tell me why
you say that you don't care, but
we made love, tell me why
you made a fool of me
tell me why
you made a fool of me
tell me why
(tell me why
