I wanna say
Do you know
How I feel
When you're away
When you're not
In my arms
This is gonna
Make me feel
How my life
Move go on
If you don't come back to me
Can't you see
What you do
When you act like you do

Nothing again
Show me you can
I want to be
With you alone

Give me..

Let us be together baby
Give me ev'ry night
Ev'ry night I want to
Let us be forever baby give me
Ev'ry night till the end of time

You look at me
In a way
There is a fulfill
Of what can I say
Then I know
What is really in your heart
Don't be shy
Let me know
What you have to
Say to me
I will be
Close to you
Each and every day

So nothing again
Show me you can
I want to be
With you alone

Give me...

Let us be together baby
Give me ev'ry night
Ev'ry night I want to
Let us be forever baby give me
Ev'ry night till the end of time

Nothing again
Show me you can
I want to be
With you alone

Let us be together baby
Give me ev'ry night
Ev'ry night I want to
Let us be forever baby give me
Ev'ry night till the end of time
