"I Am Alive"

I, I'm moving through time
Being human by design
Life
Unfulfilled but divine
Never ending
How could I be so blind?
What is this world
Doing to me?
Notwithstanding the lies
All the tears I have cried
I've opened my eyes

Chorus:

I am alive
I am who I want to be
Walls are falling
I am alive
And this is my destiny
The king is calling
I am alive

Far from the maddening crowd
Playing mind games
Way out loud
Pictures of heroes
Lined up one by one
Embracing the future
I have begin

(Chorus)

Passing strangers
Artificial life
Slowly falling
Look out for me
I am alive

(Chorus)
