(Alan Paul)

Ok, wanna settle down over there?

Hold the music there, hold it..

I've been asked by the Transfers to come out here and
talk to you

I'm the raging Freddy Morris, I've been around a long
time.

What's so funny?

I want to introduce you to a man

Who is a giant among giants in the business

When I say that, I mean he knows them all

I mean Frankie and Sammy, Tony and Lena,

Liberace, you know - the biggies...

I want you to make him feel really at home here

We're talking, we're talking about the king of dada

We are talking about the hippest talker in America

He's come a long way, I want you to make him feel
really at home here,

He cost big bucks - let's hear it for him

L Dorado Kaddy, ok, here he is now....
