You're my heart's desire, You're my hearts desire--

You are

My heart's desire (hearts desire)

You set my soul on fire (soul on fire)

When your lips are close to mine

You'll find --

That you're my hearts desire

(you're my hearts desire, you're my hearts desire)

Oh--

No other love could be (love could be)

As sweet as yours to me (yours to me)

Oh my darling, oh can't you plainly see

That you're my hearts desire

No other dream could replace

That lonely and cold empty space

And fill my heart with a love

For it's you I'm dreaming of...

There's one thing I know (baby I know)

I know that wherever, wherever, wherever you may go

(you may go)

Oh honey I'll forever keep on loving and wanting you so

'Cause you're my hearts desire

You are my heart's desire
