Da Trolddomen bleff hãfã,ã,ãved - & need  
Paa Jorden han svãfã,ã,ãved: Da som nu  
Vaer Jaget ved at lefve, ved at aande,  
Ved hver Bevãfã,ã,ãgelse saa stoor at nãfã,ã,ãsten  
Dend vaer Smerte

Medens han gik omkring  
Blandt Mennisker, vaer han skuffed fãfãfã,ãrst:  
I Liivets ydre vaer der intet Skifte  
Lig det han hafvde fãfãfã,ãIt i Ulvens Liiv

De trãfã,ã,ãller under ham  
Med at troskyldig Sind  
Fryckter ham,  
Een Krafft aff sand Natur,  
Som Sanser uden Selfbedrag

Han gliider useet blandt dem, streifer i sit Jag  
Lig Kvãfã,ã,ãldens Farver, Nattens Aandedrag

For ingen Guderãfãfã,ãst hafver nogensinde  
Git Mennisket Svar paa hvem han skiulede  
Dãfã,ã,ãmon, Phantom & Varulv  
Vaer kund Naffn paa det de aldrig kunde finde

End han -  
I hans Hiãfã,ã,ãrte: Een Affgrund tung  
Som det sorte Hav  
Der eldsker sine Dyb

Der -  
Sammenkrãfãfã,ãget  
I Vintrens Bund  
Fãfã,ã,ãlder han al deris GIãfã,ã,ãde,  
Liiv, Mod & Haab

Maanen, stiegende paanye,  
Hilser ham fra en sunken Himmel

...Oc ved den lydende Midnattssalme  
Som Fryckt i Natten vãfã,ã,ãver  
Skald de ffromme atter falme

The spell did breake and gave release  
To hours amongst Mankynde  
But then, as now, the strayn  
Of living, breathing, yea ev'rie move  
A burden approaching payn

Dishearten'd he was  
As he wander'd with men  
On the surface of life - no change  
No change as the Beast within

They fear him, these fooles  
A power pure, nature unveil'd  
Perception sans delusion

Amongst them he walks unseen  
Like a tint if Twilight  
The breath of Night

No voice of God did tell  
Man what He did hide  
Werewolf & Phantom, Daemon & Beast -  
Mere names given to what they fear'd

But he -  
In his heart: An abyss unfathomable  
As teh blacken'd sea  
Which loves its deeps

There -  
An animal shadow crawling  
O'er the wintry soil  
All Hope, Joie & Life he slayes

The Moone, rising anew,  
Bids him welcome from a waning sky

... And by the sounding  
Of his midnight psalme  
Feare shall be harvest agayn  
From the Pious hearts of men
