Visit "[We Are](#)" on MotoLyrics.com

Sadness hits the grounds, screams are the only sound
Meanwhile you take a bubble bath, there's no person in
your path.

Blood is in their eyes, you are telling lies

CHORUS

We are not stupid

Don't you see?

We are not the problem

Can't you think?

We are way stronger, and your clients

So you better do things right.

Are you sleeping well?

'Cause I just can't

Are you eating well?

'Cause others can't

They feed their sons with your trash

You should hear their calls, instead of smile.

CHORUS

We are not stupid

Don't you see?

We are not the problem

Can't you think?

We are way stronger, and your clients

So you better do things right.

Sometimes I wonder if you enjoy being a puppet

I wanna send you to the space on a massive rocket!

Sometimes I wonder if you enjoy being a puppet

I wanna send you to the space on a massive rocket!
