Wheels of time
The world is getting cold
And feelings are almost out and sold
I wonder where we are to go
And if we will ever get to know
What it feels like
The sound of love

The sound of love

What is feels like
The sound of love

Wheels of time
The world is getting cold
And feelings are almost out and sold
I wonder where we are to go
And if we will ever get to know
What it feels like
The sound of love

What is feels like
The sound of love
