"All in Time"

Visit "[All in Time](#)" on MotoLyrics.com

I could tell you all about what's next
if I could make it clear
Or to complicate the text
what would you hear then

I'd tell you about my cause
cause you know about my flaws
Tell you I've no reason why I'll
tell you about my head
but you know what instead
I'll tell you when your answer comes in time.

I was taken I was left in doubt
but did not see
All out in tune and so without
I could not breathe then
chorus
It's All In Time, It's All In Time

I was taken I was left in doubt
did not know
All out in tune and so without
or where to go then
chorus
It's All In Time, It's All In Time

Well I'm well endowed
with all the doubt I need.
And I can see that when
your eyes look down on me.
My blood it boils
with passions overflowing.
And I can see that when
your eyes look down.
