A I call the king forth,
Upon a world in flames.
Like a fucking beast.
I conquer,
The beauty.
My cold black dance,
... dark and hunger.
The blood in my mouth,
Demons, mayhem,... !

Return of mayhem!
Fire the nation!
?
World of flames!
Darkness eternal!
Enemy of the sun!
Soul from blackness!
World of flames!

The moon is guiding me,
To the other side.
The flames are leading me,
I enter the dark!

I am the demon's seed,
I conquer the beauty.
Wings of death,
(Mis)carry me upon a world of massacre!

Return of chaos
Darkness eternal
World of flames

Return of chaos
Darkness eternal
World of flames
