I didn't know things were supposed to be this way  
I wasn't told of this before  
But had I known about this fall for some time  
maybe I could've been or could've known  
I once was dropped among this crowd  
I didn't know things were supposed to be this way  
I wasn't told of this before  
"It's all right" was all I heard  
"It will blow away, away from me....."  
(guitar solo)

And it fades from my mind,  
Its gone and left behind  
As we age, each day flies by  
still no one told me why  
because its fading fast  
so how could we make this last  
its fading, fading fast,  
all things must pass I guess

I didn't know things were supposed to be this way  
i wasn't told of this before  
Its all right was all I heard  
This will blow awayyyyyyyyyyyyyyy
