No assumption should be worth listing
they belong with someone else
set in motion but you're still missing
there will always be a need
you were always somewhere above me
can there be a way around this

chorus

when it's there you know you wanna be the one to ride
it through
and it's easy to stop before you start
when it's there you know you wanna be the one to ride
it through
and it's easy to stop before you start

bridge

there's only one more way to think about what
everything
could happen if it wasn't left unsaid
and every time we seem aware of all that matters
there will always be a memory you forget

so be demanding when no one's listening
you will always find an ear
set in motion but your life's missing
there will always be a need
there has got to be a reason
who's to say what privilege means and

when it's there you know you wanna be the one to ride
it through
and it's easy to stop before you start
when it's there you know you wanna be the one to ride
it through
and it's easy to stop before you start

the more i realize
the things i've seen through these eyes
there's only so much more that you could show
cause as many times as we've been there and back
again

no i don't care if i'll be no one in the end
cause as many times as we've been there and back
again
no i don't care if i'll be no one in the end
