"Prophecy Now"

we live along
a chorus of constant streams
all to often
deepening
take what you get
and use it wisely now
what could you give
back to me now
is it in present state
take your winnings
all incomplete
today could be
sending all your dreams in life
prophecy now

we live along
a chorus of constant streams
all to often
deepening
take what you get
and use it wisely now
what could you give
back to me now
is it in present state
take your winnings
all incomplete
