I gaze into the blackened sky  
Before my eyes eternity opens  
I can feel it through the night  
The calling of the mist  
Burning shapes born in shadows  
My name they speak in tongues  
They bid me welcome to explore  
The frozen land of sin

Visions forms into the clouds  
Behold! The face of mine  
The truly me is no longer a quest  
Under black winds I ride  
The hunger for my soul  
Raise into the sacred knife  
I hear the moans of death  
My life has to end

With sacred gleaming steel  
I cut myself  
I drain from blood  
My sight gets dim  
I rejoice as I bleed  
No longer feel the pain  
Eternal winter inside  
I end my life

Life demise - Released from living  
Cleansed from the pain - Reborn in  
the arms of the dark divine  
Life demise - I fade into eternity  
Darkest angel lead me on...

I gaze into the blackened sky  
Before my eyes eternity opens  
I can feel it through the night  
The calling for my soul  
Visions forms into the clouds  
Behold! The face of mine  
The truly me is no longer a quest  
Under black wings I ride

With sacred gleaming steel  
I cut myself  
I drain from blood  
My sight gets dim  
I rejoice as I bleed  
No longer feel the pain  
Eternal winter inside  
I end my life

Life demise - Released from living  
Cleansed from the pain - Reborn in  
the arms of the dark divine  
Life demise - I fade into eternity  
Darkest angel lead me on...
