[Intro] [MURS Talking] Yeah, on the serious tip Christina Ricci why don't you come home girl? I'm tired of the games I'm ready to make the necessary changes Whatever it's gonna take to keep you home [Verse One] I remember tenth grade when I first started to jones The first Addam's Family, before you were well known I was down from the start, we were around the same age Addam's Family Values was the very next stage Gold Diggers now and then Before the magazines Before the late 90's when you started "Wowin'" men After Casper I was hooked With The Ice Storm and Pecker it was my heart that you took The Opposite Of Sex put me over the top Buffalo '66, girl you really need to stop And sadly enough I can't count the blockbusters that followed So F whoever did you makeup on the set of Sleepy Hollow Alright I'm not a stalker, I just know what's right for me And I know I might just be what you're young life is missin' One night spent with me, out huggin' and kissin' Talkin' til the sunrise, F them Hollywood guys Cause they all fake and phony What you need is a friend/lover/homie Come to a Legends show and afterward get to know me But if not, I see you on the street, we meet each other I'ma introduce myself and ask you, "Do you date brothers?" If you say you don't, I won't hang my head in shame I mean at least I tried and if not then I'm to blame But please stop the games And come back home put an end to our pain [Chorus] [x6] Come back home Christina [Verse Two] Have you ever like someone who didn't like you Or worse, they never knew you existed? Every time you saw 'em, your stomach did flips Your insides twisted Building courage double fistin' Waitin' for that big chance to ask 'em on a date but you missed it F! Procrastinating cause you're scared of rejection But if you never take that chance you'll never gain their affection Collectin' all them letters but you're too scared to send 'em Hella nervous when they're around Cause you're scared that you'll offend them Look, just be yourself If people don't like you after being yourself... FUCK EM Fuck 'em up against the wall with handcuffs on And crazy glue on their lips

Look, don't trip about what other people think about you  
If it was really meant to be then your dream will come  
true If not then... FUCK EM We both now it's their loss  
They missed out on good head and their salad gettin'  
tossed What? Wait wait wait I don't know about the last  
part, but you know what I mean There's +Otha Fish+ in  
the sea Even if they're on The Pharcyde of your stream  
ahhhh Fuck you love sick motherfuckers, I'm gettin'  
back to Christina [Chorus]
