music by Vincent Bocchini
lyrics by Vincent Bocchini

Lets wake in the morning spend some time to pray
And head out into the day
People past us by who need the truth
Or just wandering through
What do we say what do we do

(Chorus)

If we stand in the Light we shine for Him
We shine in the light we stand for Him
If we stand today we shine forever
Lets shine today lets stand together

Someones watching is it a friend
Or a neighbor who's looking
What are they seeing as they're walking along
Is our witness strong
What will they say what will they do
(Chorus)

Dont you know that we are in service for Him
So lets show our heart that He is in that He is in
What will they say what will they do

(Chorus)
