I'm back in this bitch you'll be dead by tonight  
I came to haunt your fucked up every day life  
Look at me look in my eyes, my face is no disguise  
I won't appologize if he dies  
You livin in fear scared to shit  
Scared like a bitch, scared of the wicked witch  
I'll take you on a murder ride so you can see  
Death ain't shit but a game to me  
So play your cards right cause i live the hard life  
It aint you its, just your god I despise  
So this might make your ass shift to reverse  
All my niggaz load up the hearse  
And let me take you on a murdaride

murderride x 17

Let me take you on a murderride to no mans land  
You don't know me man  
I'm rolling like a killer only can  
Yes I can use these murderous tools  
Ain't no heroes in hell  
Never ever have I heard of you,  
Listen to my voodoo  
I truth or dare you, I'll make your nightmares true  
Who want to ride as I run shit  
Up and down the east town I let my gun click,  
Taking malicious action with no compassion  
The game of death just started ain't no relaxing  
Damn somebody catching every burst  
I'll take you to hell you don't need a hearse  
Just let me take you on a murderride

murderride x 17

Let me take you on a ride of your life  
been known to ride for days Niggaz dying in alley ways  
Oh how a dead body rots,  
Fucking cops got me on homicide watch  
I'm out my coma on a whole other level  
Never been on my knees to pray to a god or a devil

I don't got a minute to pray but a second to die  
I'm only what you see to the naked eye  
Cause I got you locked on like a hypnotist,  
My body count niggaz trying to get with the wickedness  
I'm stuck in the flow fuck it though,  
This goes to the otherside  
I'll take you on a murrerride

murrerride x 17

You want to go to war, I'll take you to war  
You want to go to hell, I'll open up hell's doors  
Let me drive you to suicide once I show you can't hide  
From the rain where bullets fly  
Acid maniac psychoneurotic  
Do you believe in God, a reel life product  
The meek shall inherit the earth now  
Look at all those dead bodies piled on seven mile  
You might see me putting in some work  
Fuck it watch me do a little dirt,  
Every day and night the shit gets worse  
I'll take you to hell fuck a hearse  
Just let me take you on a murder ride

murrerride x 17  
murrerride  
let me take you on a murderide
