Sometimes I wonder why you want to be with me  
oh yeah woah  
when you tell me you love me do I still believe  
woah yeah woah

cos once upon a time when the band was playing  
you threw that glass and I end up saying  
listen up kid you're not all there  
you're getting kind of crazy and  
I'm getting kind of scared  
once upon a time when the band was playing  
and you threw that glass and I end up saying  
listen up kid you're not all there  
you're getting kind of crazy and  
I'm getting kind of scared

sometimes I wonder why I wanna be with you  
woah yeah woah  
when you tell me you love me do I still believe  
woah yeah woah

you still love me, well I don't think so  
I still love you, I don't think so  
you still love me, I don't think so  
I still love you, well I don't think so  
you still love me, well I don't think so  
I still love you, I don't think so  
you still love me, I don't think so  
I still love you, well I don't think so
