we are backed up we are backed up so far  
and the powers that be are not powers that we have  
we are knuckled down ,buckled under, fucked around  
and passed over  
but there isn,t a day I don,t love you

somebody took the sun away  
and they left me in industrial grey  
we are knuckled down, buckled under,fucked around  
and torn asunder  
but there isn,t a day I don,t love you

Are we gonna get up  
Are we gonna stay on the floor

I,m getting up  
I still want more
