When you're all alone
Do you think about me?
Do you think about me?
'Cause I think about you all the time
How long do you think about me?
Do you think about me?
Baby

Baby, baby
Do you have a minute or 2 to spare?
'Cause I...
I'm not the same when I'm by myself
Your face always seems to appear
In my mind
All I wanna know is...

Repeat 1

Do you get my message?
Can you read between the lines?
(Need to know just what the deal)
It's the perfect situation
'Cause you and I have been cool for a while
And I've been diggin' your style

Bridge)
So do you wanna explore the chances
Of makin' it much more than just talkin' on the phone,
baby
See if our feelings of love enhances
If it's alright with you, tell me what you wanna do, baby

Repeat 1

You're on my mind every day
Hmmm, hmmm
And I want to know if you think about me

Repeat 1 to fade
