(Intro)

I don't know what to do  
She's all I've ever wanted  
I'mma have to let this feeling go  
Because I can't have her  
It's killing me

I never wanted anything in this world  
As much as I want you, mmm  
>From the first moment I saw you  
I felt my heart yearning  
But I know you gotta man  
And you love him real strong  
He claims he loves you too  
But I know  
That he don't love you like I do

And I can't help the way I feel  
Everyday it gets so hard to deal  
The one I love so much, don't feel the same about me  
Gotta let it be

1 - I keep tellin' myself, better walk on  
Leave well enough alone  
Better find a woman of my own

Keep on tellin' myself I can't make her my very own  
Leave well enough alone  
Better move on

Only know your man by seeing him with you  
Respect forces me not to pursue  
Don't worry  
Steppin' out of line, I will never do  
I pray that one day  
You'll have a change of heart  
(I promise we'll never part, oh no)  
You'll be cherished by me like a work of art

I just can't hold what's inside  
My foolish pride won't let me hide  
Can't stop my love

'Cause you are my destiny

Repeat 1

But you love someone else  
Why'd you have to love someone else baby?  
Mmm mm mm  
I need something to know

And I can't help the way I feel  
Everyday, it gets so hard to deal  
Can't stop my love  
'Cause you are my destiny  
Hey, hey, hey

Repeat 1 to fade
