

## Uncle Tupelo "The Long Cut"

Visit "[The Long Cut](#)" on [MotoLyrics.com](https://MotoLyrics.com)

I've been searching  
And you've been gone  
Out looking for the shortest path  
To the one that you're on

And I've already seen  
All I wanna see  
Come on, let's take the long cut  
I think that's what we need

When we were younger  
And we were strong  
We felt a lot better  
Than the things that we'd done

Now if it's to be, if you still believe  
Come on let's take the long cut  
I think that's what we need  
If you wanna take the long cut  
We'll get there eventually

I've been searching  
And you've been gone  
Out looking for the shortest path  
To the one that you're on

Now if it's to be, if you still believe  
Come on let's take the long cut  
I think that's what we need

We've been in a deep rut  
And it's been killing me  
If you wanna take the long cut  
We'll get there eventually

Eventually  
Eventually
