There's all these boring people, you see 'em on the TV

And they're making up all these boring stories

About how bad things have come to be

They say "You got to, got to, got to feed the hungry"

"You got to, got to, got to heal the sick"

I say we ain't gotta do nothin' for nobody

'Cause they won't work a lick, you know

They just gonna have to roll with the punches, yes they will

Gonna have to roll with them

They gonna have to roll with the punches, yes they will

It don't matter whether you're white, black or brown

You won't get nowhere putting down

The old Red, White and Blue

Tap it baby. Alright. All right!

Look at those little shorts he's got on, ladies and

gentlemen

You can see all the way to Argentina

Get it

So pretty

Let 'em go to Belgium, let 'em go to France

Let 'em go to Russia

Well at least they ought to have the chance to go there

We have talked about the red, we have talked about  
the blue

Now we gonna talk about the white

That's what we're gonna do

Now we had to roll with the punches, yes we did

We had to roll with 'em

We had to roll with the punches

Yes we did

We had to roll with 'em

I don't care what you say

You're livin' in the greatest country in the world

When you're livin' in the USA

Tap it baby, alright

All right
