There's no need for you to tell me, I can see the way
you feel
I just know without you saying, what is a lie and what's
real

Chorus:

Every face tells a story, it's hard to hide a lie
Every face tells a story, and yours is saying goodbye

Something's going on, and I know it, you can't keep it
from me
Your smile cannot hide what you feel inside, and I don't
like what I see

chorus

You're always telling stories, you're always telling me
lies
You're always telling stories

If you want to leave me, leave me, no good living a lie
You can pretend that we're not gonna end, but your
eyes are saying goodbye

chorus

You're always telling stories, you're always telling me
lies
You're always telling stories

Tell me, I got a right to know, pour your little heart out
to me baby
You know, you know I don't want to let go
