Life, a gift we cannot take for granted
We gotta live it right, we are the parents of our planet
We've touched the moon and built the final gun
If war was food we could feed everyone

Chorus:

Talk about the children, what will be their legacy
If they have a future, it is up to you and me
Talk about forever, for we may not have that long
Oh, it's now or never, let's talk about, let's talk about
tomorrow

Trees, animals and seas, we're all connected
They have a right to be, but they can't ask to be
protected
I feel the rain - burning from the sky
We are to blame - if we just close our eyes

chorus

It's our only world, please save us from ourselves
