Although I know our love is going strong
Little surprises coming up and along
We mustn't let our lives become routine
Don't do anything we don't need

There is no limit on love at all
It can always get better, [when to leap in] your fall
You're sure without that love we won't survive
So come on and show it, let's keep it alive

And we'll be

Chorus:

Making a good thing better, 'cos with luck it's gonna
last forever
You'll see
Making a good thing better, that's the way we're gonna
stay together
You and me

If we're to make each other satisfied
Gotta keep on trying, don't let it ride
It all comes over in the morning kiss
Don't do it like that, do it like this

(chorus)

Make it so much better, and it's better better
Make it so much better, make it better better
Make it better better better, make it better better better
Better better better better...

(chorus repeats out...)
